

ELECTIVE PROJECTS IN PATHWAYS

In Levels 3, 4 and 5 you choose from available electives to enhance your learning and meet your goals. Electives are the same across paths, though in some paths an elective may require a project instead.

Projects that are required in a path are marked with an * with the Path(s) indicated. You can complete more than the required number of electives, but credit is not given for those projects and extra completed electives cannot be applied to any other Path.
