Relevant work experience and how it relates to Toastmasters and your role as a District leader:

I have been project manager for more than 10 years and I am good with processes and managing the tasks. I have been practicing servant leader for many years. In Toastmasters we need to follow the same principle by keeping members at top of the pyramid.

What experience do you have in strategic planning?

I have been part of district council for 7 years as Area director and Division Director. Planning ahead of time with Vision will help to align the tasks towards the goal

What experience do you have in the area of finance?

My experience in area of finance is very minimal.

As a project manager, I developed procedures and governed to make sure team members adhere to the procedures. Telling team members ahead of time what need to followed and making them accountable using the same process and procedures

What experience do you have in developing procedures?

What lessons did you learn from previous leadership positions?

Reminding Toastmasters will be very helpful as they are all busy and toastmasters is not highest priority. Having monthly meetings with Team members either Club officers and or area directors is very helpful.

In toastmasters, I can serve and learn at the same time. I can practice and learn leadership styles.

Why do you want to serve as a District leader?

In your opinion, what are the District mission's major objectives and how would you work to achieve them?

District mission is creating new clubs and serving existing club, which help many toastmasters to acheive their goals, hence club goals, area goals, division goals and district goals. Over all mission is developing leaders and excellent communicators in the society.

Additional information about yourself:

I am happy to server another year as part of District council.
