

## BASE CAMP QUICK TOUR

The main areas of Base Camp are accessed via the tiles on the Base Camp home page. Below is a brief description of those areas.

Go here to explore Base Camp and Pathways. You'll find tutorials and FAQs grouped by subject areas to help you learn how to work in your projects and complete levels. You can access the **Base Camp Glossary** here as well.

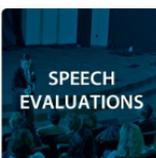

You can access your path here, and all other items in your transcript. Select the **Open Curriculum** button to launch your path. You'll need to turn off your pop-up blocker for this site to open the projects, and make sure to maximize open projects to see all navigation options. You can mark items in your transcript as complete, or archive them, so that only what you want to see will be displayed.

This is where you can request and share feedback with your fellow club members. You'll see the feedback and badges that others have left for you. You can even ask for anonymous feedback from club members.

Your feedback and learning badges are stored here. Feedback badges are badges members can give each other to encouragement or support. Learning badges are ones that you earn through your progress in Pathways. All of your badges can be viewed by your club members.

This section has evaluation forms for all Pathways projects. You can quickly find the right evaluation form for your speech or someone else's. View the extremely helpful **How to Evaluate** tutorial, a great resource for new and seasoned members, which explains the Pathways evaluation forms and how to use them.

### Additional Tips

- You'll find some items in your transcript in the **My Education Transcript** section, but only a limited number of them (in alphabetical order) will display here.
- For more tutorials and resources, go to **Tutorials and Resources**.
- You can also use the search bar to find tutorials, resources, and evaluations.
